Possibility to arrive the day before.

This tour with 3 legs allows you to discover the southern part of the Martinique Island, where the Atlantic Ocean meets the Caribbean Sea. The first leg "Diamond" proposes to go around its mythical rock, an ancient sea outpost during the colony wars and now a local bird sanctuary. The more pastoral second leg entitled "Aqua Marine" combines the pleasure of navigating with the pleasure of having a bath in the turquoise sea of the Anse Figuier beach and beaches alike in Sainte Luce. The wilder leg number 3 called "Emerald", departing from Sainte Anne, leads you to the great Salines beach and its protected pond from the picturesque Anse Trabaud via the island called the "Devil's table". Gastronomy, arts and local traditions (dance, tale,...) will be present! A pedestrian trip to the Val-d'Or mill is also possible. At the end of the tour, the rowers will be able to discover the boisterous atmosphere of the Martinique carnival (to be experienced at least once in a lifetime!).
