It's Heaven on Earth according to the locals, who can't be wrong... please come and make your own opinion! Presenting the Chablais or "lake head" after such an introduction is not easy: lake AND mountain, perches AND groundhogs, pebbles AND sand, reblochon AND abundance cheese... There is something appropriate for everyone, because the settings are full of contrasts! Your tour on the Geneva Lake will offer you this variety and diversity: to the west, the Coudrée and Beauregard castles, the medieval villages of Yvoire and Nernier; to the east, the Montjoux and Ripaille castles... We will be pleased to share the delights of Lake Geneva with you from the brand new nautical base in Sciez. See you soon!
