

26 AUGUST

1 DAY / 35 KM

ROWING LEVEL 

The Juraviron is 20 years old, time to party! At the heart of the Jura mountain range, this tour will have you sail the Lac de Vouglans and discover the training site of the national French rowing team: the Bellecin sport centre, and the whole southern part of the lake. The less frequented northside, heading for the Pont de la Pyle, will let you enjoy some sights in a quiet environment. While rowing, you'll be able to catch sight of the ruins of the Chartreuse village, sunken when the lake was created. If it's your fancy, you can also enjoy the Moirans Toy museum, or, if you like climbing, the Le Regardoir via Ferrata, which will take you to a splendid view of the lake.
