# CROSSING PARIS AND HAUTS-DE-SEINE

For half a day, you'll be able to enjoy a very exclusive rowing circuit! This is the only time every year when the Paris' section of the Seine is open for rowing, and up to 1000 rowers and 200 boats can enjoy a visit to the heart of the capital: the esplanade des Invalides, the Eiffel Tower, the National Assembly, Orsay, Notre Dame... and let's not forget the 33 bridges that punctuate the tour, each with its own architecture and history. The Seine has been the witness to all the events that contributed to the development of the most beautiful city in the world. This tour adds poetry, history, and a certain grandeur to the practice of our sport. Sailing along the Seine quays, under the Pont-Neuf or the arch of the Pont Alexandre III has to be a strong experience. This tour across Paris and the Haut-de-Seine will close with a convivial and festive meal.

## PROVISIONAL PLANNING
